

# Hot Band Temper Mill For Strip Processing Line

## Product and Process Data

Material:	Hot rolled carbon steel, HSLA
Max Yield Strength:	70,000 psi
Product Width Range	26"min~72" max,
Product Thickness Range	0.06" min ~0.5" max;
Maximum Elongation	2.5%
Maximum Rolling Speed	150 fpm

# Hot Band Temper Mill For Strip Processing Line

## Mill Specifications

Maximum Rolling Load:	1500 tons
Hydraulic Screwdown Force:	1700 tons
Motor Rating:	600 hp 850/1050 rpm
Maximum Roll Bending Force	78 tons/chock
BUR Diameter:	40" max, 37" min
BUR Neck Diameter	22"
BUR Neck Length	23"
WR Diameter:	18" max, 16min
WR Neck Diameter	10.5"
Roll Face Width:	80"
